

Humanitarian Aid Curriculum Vitae

Mark S. Mosely

Chief Executive Officer, 911 Emerge-N-See, April, 2018 – Present, St. Simons Island / Atlanta, Georgia USA

International class implementing partners and consultants providing essential services and products for secular and faith-based humanitarian aid organizations, applying +25 years experience: in +60 countries; within 13 UN emergencies; through 7 wars; on 5 continents.

Areas of engagement include:

Emergency Response: International and domestic DART (Disaster Assessment & Response Team) deployment, training and provision e.g. Interagency Emergency Health Kit with sufficient essential medicines, supplies & services to treat 10,000 people for three months.

Public Safety/Health Services & Systems: 911 Emerge-N-See digital public safety portal coordinating both emergency and ongoing response and providing public transparency for police, fire, EMT, public works through visual data and management for agencies and first responders in 'real time,' including domestic and international disaster relief deployment.

Supply Chain Management and Technology: Ship-N-See cutting edge logistics (air, sea, overland) portal managing both emergency and ongoing response of humanitarian aid through satellite tracking from point of origin to intended recipients around the world – for those in need, response leadership, and donors.

Monitoring & Evaluation: Technology-driven process to improve quality and accountability of both emergency response and ongoing humanitarian aid interventions efficiently meeting needs of affected populations. Monitoring/collecting/analyzing data of ongoing activities and outcomes ensuring delivery, success and maximization of resources. Evaluating and assessing project success at set intervals to ensure impact, relevance, sustainability and application of 'best practices' and 'lessons learned' to improve future operations. Applying M&E through key performance indicators [KPI]: clear objectives; data collection; analysis and reporting; and accountability to donors and beneficiaries.

911 Emerge-N-See Emergency Response & Development Engagement
